2. NVR Lite Edition license cannot be mixed with NVR Commercial Edition license. They must be purchased and installed separately.
3. Using payment methods other than [PayPal](#), or requiring any manual procedure (such as manual invoice issuing) will need to charge US\$100 handling fee per transaction.

Software Licensing Terms and Conditions:

1. All software licenses, unless otherwise specified, is **per-camera-channel** permanent license and includes one-year free upgrade.
2. For software license, Genius Vision employees "online license authorization" mechanism. You will receive electronic license code without physical goods. The target computer where you intend to use the software on must be equipped with Internet access at the time of installation. The granted license will be fused into target computer configuration and cannot be migrated to another computer. In the case of computer maintenance, such as OS re-installation, you are responsible to properly backup/restore license information in order for continued use.

3. The effectiveness of the software depends on many factors, including but not limited to: hardware, network, OS versions/patches, other software, and user operations. You have already tested the evaluation version of the software and found the software is suitable for your usage. By purchasing you agree to indemnify Genius Vision from any and all direct and/or indirect damages as a result of using the software that is caused by non-malicious intention. Therefore before you put the "Software" into use, it is your sole responsibility to evaluate and ensure its fitness.
4. Genius Vision excludes the implied warranty of (1)the fitness of a particular purpose (2)merchantability and (3)non-infringement.
5. The "Software" is a copyrighted work and proprietary properties of "Genius Vision Inc." It is a violation of international copyright law to (1)redistribute without proper authorization (2)reverse-engineer the software (3)circumvent license protection mechanism

Notice to System Integrators:

1. We do not recommend changing anything on a well-established server in operational state, including upgrading software or adding license. The user must be aware and be solely responsible that any change to such system could result in data loss that Genius Vision is not responsible of.
2. Our standard support policy does not cover systems that have operation history over a year, including adding new license or upgrading new software to such systems. Support request over systems that have operation history over a year is subject to paid consultant service.
3. Due to the complexity introduced by IT industry eco-system, integrators are required to take the responsibility to combine various system components and deal with their compatibility and maintenance issues. The sophistication of professional software such as Genius Vision NVR needs experts to properly install and adjust configuration carefully. You could risk losing our standard tech support for improper user operation or configuration.
