¹ Simultaneous viewing still limited by device screen size.

² Simultaneous viewing still limited by device screen size.

³ Thumbnail video listing automatically select 2nd stream, if available. Reduced to 1/5 fps to save bandwidth.

Additional Information

- “Pro” means the function is free when connecting to Lite Edition. When connecting to other editions, a fee about US\$2.00 will be charged from end-user.
- “Basic” means the function does not require additional fee.
- “Special” means the function might need additional fee. All unlisted features are potentially “special feature”.
- “n/a” means the function is not available yet.
